Respected sir/madam,

I am writing this reference letter in support of Ms. Pradnya Rajendra Kothawade who is applying for master's program at your esteemed University. Pradnya has been my student from July 2016 to March 2019 during which I was teaching a subject accounting and finance.

Pradnya has always been an active and attentive student. She has shown exceptional interest in all her academic activities. Always pleasant attitude, she was well liked by her peers and accepted feedback from myself and her fellow students with genuine interest. She has always been keen to learn something new.

Pradnya completed assignments with little supervision and in a timely manner. She approached assignments and group work with energy and vigor and was proactive in her pursuit of understanding an assignment and seeking out input and resources to excel in each assignment. Other than her academics she was among the best student we had for extra curricular activities, from organizing an event or being part of it she has always shown eagerness to lend her hand in any matter possible.

I thus see a bright future for Pradnya and I am confident of her ability to face the rigors of higher studies. I wish all the very best for her future endeavors.

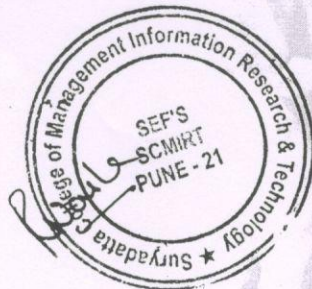

If you have any questions about this recommendation or endorsement of Pradnya, please do not hesitate to contact me and I will gladly try to help.

## To Whom It May Concern

I am writing this reference letter in support of Gayatri Londhe who is applying to the Master's Degree program at your esteemed University. I have known Gayatri in my capacity as her Professor for over three years during her Bachelor of Computer Application. I have taught her computer language courses like C, C++, and Java.

Throughout her course of study, Gayatri has shown great interest in practical learning techniques. She was always engaged in several courses and research related discussions in which, she confidently talked about her career plans and learning specialized courses from universities abroad. She was always prompt in answering questions and always eager to ask queries to enhance her knowledge.

For her project, she chose to build a software program "Online Bidding" individually. The end to end programming and reporting was implemented by her. She was good at understanding her potentials and her flaws and worked on them. She was among the first three toppers in the class in her Bachelor of Computer Application degree program.

Besides the academic record, Gayatri has always shown a keen interest in participating in extracurricular activities like inter-college debate competitions and inter-college dance competitions. During these competitions she has showcased great leadership qualities and communication skills.

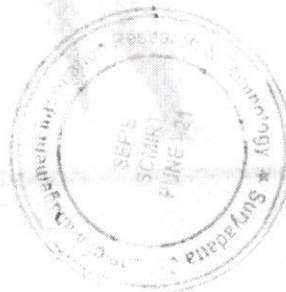

I have the deepest personal and professional respect for her, and sincerely believe Gayatri will bring her unique energy, optimism, passion, and tireless creativity to your class and University as a whole. Thus, she has my highest endorsement for admission into her desired course at your University.

If you have any questions about this recommendation, please do not hesitate to contact me for I will gladly try to help.

## LETTER OF RECOMMENDATION

With immense pleasure I would like to put forth the candidature of my student Miss Akanksha Kumari for the graduate program at your esteemed University.

As HOD for the Bachelor of Business Administration course, I have been in close interaction with Akanksha and have also taught her the subjects of accounting and finance. I know her right from the start of the course. I found her to be a very sincere and hardworking student who possesses good academic records. She never misses the opportunity to go the extra mile and ensure that her work is complete and accurate.

In addition to academics she has also been actively involved in various extra-curricular activities and won numerous accolades for organising and participating in various competitions in college fest.

To my experience as a Professor of accounting and finance I would rate Miss Akanksha as one of the finest students in our college. I am confident her thirst for knowledge and great perseverance will take her pursuit for excellence in the field of her choice.

With her clarity of thought, focused approach and fine personality she will prove to be an asset to your department. I wish her all the success and strongly recommend her for the master's degree program at your esteemed university.

Mr. Romee .P.Gajbhiye has been my student for years from July 2015 to may 2018 during which I was teaching a subject accounting and finance.

Exceptional intellect, tremendous drive, natural leader, unlimited potential. four qualities that immediately come to mind when I think of Romee Gajbhiye . I found Romee to be sincere and hardworking student he exhibited good ability in understanding basic theories and apply them for practical purpose. He has pretty good communication skills .He always grabs opportunity and tries to do his best.

Mr .Romee has always been involved in extracurricular activities within the college. He has participated in fashion show and as well as he won medals for basketball competition's am exceedingly happy with the results he have achieved, and will heartily recommend you to anyone else seeking similar services.

A main aspect of Romee is to gain knowledge about retail and business so as to apply in real world. Romee has the ability to work in groups and handle pressure when needed. He was a leading light in my class of 38 students. The presentation presented by him in class were well choreographed ,well throughout ,and used the technology of full advantages ,such as using colour in report and PowerPoint slides.

I thus see a bright future for Romee and I am confident of his ability to face the rigors of higher studies wish her all the very best for her future endeavours. I have been informed by Romee of his desire to purse his master in U.K. He has a strong bond with the retail field and he has knowledge about the retail world .I strongly believe that Romee is capable to excel is his studies.
