Encourage students to come College for offline teaching.
The teaching method is good and everything is explained in a easy way by the teachers but field trips can improve our industrial as well as real knowledge , instead of reading actual experience can teachmore concepts
Everything is great and I liked my experience
Start offline college
1. Try to reach every student & ask for their doubts. 2. Make teaching a 2 way direction. 3. Try to teach friendly .

Knowledgeable and helpful teachers. The way of teaching is good!Some suggestions :- The online lecture timings(mostly in afternoon) are not suitable to attend so Lectures in morning are more helpful.
Prior indication about examinations can be helpful for working students to prepare and take leaves accordingly.
Sharing of the notes as working students are unable to attend the lectures often.. Will really help during exams :)
No need

Giving more focus on the abilities which are strong in the student rather than other subjects.
The students need to get acknowledgement according to the industry not according to the syllabus
I could participate in various competitions encouraged by the teachers The faculty always use real life experiences and examples to teach which makes it easy to understand.
