"Express your views and thoughts on  
"Environmental Pollution and Human Health"

Environmental pollution is reaching worrying proportions worldwide. Urbanization and industrialization along with economic development have led to increase in energy consumption and waste discharges. The global environmental pollution, including greenhouse gas emissions and acid deposition, as well as water pollution and waste management is considered as international public health problems, which should be investigated from multiple perspectives including social, economic, legislation, and environmental engineering systems, as well as lifestyle habits helping health promotion and strengthening

risk of morbidity and mortality from many diseases, organ disturbances, cancers, and other chronic diseases. Therefore it is time to take action and control the pollution. Otherwise, the waste products from consumption, heating, agriculture, mining, manufacturing, transportation, and other human activities will degrade the environment.

Based on the strength of the scientific knowledge regarding the adverse health effects of environmental pollution and the magnitude of their public health impact, different kinds of interventions should be taken into account. In addition to industrial aspects, the public awareness should be increased in this regard.

environmental systems to resist contamination

Environmental pollutants have various adverse health effects from early life some of the most important harmful effects are perinatal disorders, infant mortality, respiratory disorders, allergy, malignancies, cardiovascular disorders, increase in stress oxidative, endothelial dysfunction, mental disorders, and various other harmful effects .

Though, short-term effects of environmental pollutants are usually highlighted, wide range of hazards of air pollution from early life and their possible implication on chronic non-communicable diseases of adulthood should be underscored.

Numerous studies have exposed that environmental particulate exposure has been linked to increased

Likewise, health professionals have an exclusive competency to help for prevention and reduction of the harmful effects of environmental factors, this capacity should be underscored in their usual practice.

This special issue is dedicated to increasing the depth of research across all areas of health effects of pollutants in air, water, and soil environments, as well as new techniques for their measurement and removal. The goal of the special issue is to familiarize the readership of the Journal of Environmental and Public Health with the potential for different aspects of environmental pollution. We expect this special issue would appeal to researchers, public health practitioners.

Date: 26<sup>th</sup> July 2020

NSS Volunteers of Suryadatta College of Management Information Research & Technology, on July 26, paid tribute to the martyred soldiers to mark the 21st anniversary of India's victory over Pakistan in the Kargil war and saluted their "courage, valour and sacrifice."

The Kargil war was declared over on July 26 in 1999 after Indian soldiers had pushed back Pakistani troops, a bulk of them drawn from the neighbouring country's Northern Light Infantry, from the captured peaks in Kargil.

The country lost more than 500 soldiers in the war. The day is observed as 'Kargil Vijay Diwas' to commemorate India's victory. "26 July immortalised as Kargil Vijay Diwas is a saga of Glorious Victory of the Nation during Kargil Conflict in May-July 1999. SCMIRT NSS Volunteers salutes the undaunted courage, indomitable valour and sacrifice of our heroes," on their social media network as it was not possible to gather in college because of COVID-19 pandemic.

The National Day of Unity (also known as Rashtriya Ekta Diwas) is celebrated to commemorate Sardar Vallabhbhai Patel on his birthday, who truly unified the country. Rashtriya Ekta Diwas or National Unity Day was introduced by the Government of India in 2014 to be celebrated every year on 31st October.

The purpose of introducing this day is to pay tribute to the iron man of India, Sardar Vallabhbhai Patel, for his extraordinary work for the country. He worked hard to keep India united.

On the occasion of Unity Day NSS Department of Suryadatta Education Foundation's Suryadatta College of Management, Information Research & Technology (SCMIRT) has organised essay competition for the students the topic for the same was "Unity Makes Us We". The idea behind organising the competition was to infuse in the young future generation with values integrated with the knowledge and adoration about the country's rich heritage.

## "UNITY MAKES US WE "

"Unity to be real must stand the severest strain without breaking." Unity gives us the feeling of safety and protection. Unity is power and gives strength. Unity gives us dare and strength to face challenges. Unity is away from the restrictions of race, cast, creed, and religion. Unity gives strength to fight with any big problem.

You all must have heard about the phrase United we stand divided we fall. Since we have got independence we knew that how important unity is, people can easily break you crush you and throw you if you are alone, but when you stand together then nobody can touch you. We all know that unity gives us courage power and strength, we all have heard this phrase because its commonly used in different places. We can see unity even at the workplace, where team members together work in order to complete the target, even in local trains people create groups so that they can help each other, unity always supports and help, if any team member works alone there can be chances that person get defeated, but if person works as a team chances of success increases.

*As we all know unity protects us from all the evil doings, hence we people should help each other and together we should fight and face the evil and negative things, when we together stand only then we get freedom from all kind of negativity.*

*Example, at the workplace you can easily survive when your team support you, your survival becomes easy even in the case of animals survival needs unity for example bat helps each other by sharing their food(blood) so that when they don't have food they can get help from each other and can survive longer.*

*When we start by experiencing unity with God, it is not so hard to leave our "logos and egos at the door." Our ideas are really His ideas. As we submit ourselves to His will and His plan that spans the ages, we don't have to hold so tightly to our own ideas, & thinking they are our "intellectual property." I have found that God rarely gives a great idea to just one person. He usually plants it in a number of unique individuals and in His mysterious way, weaves their efforts together to accomplish His purpose.*

## Unity Makes Us We

You all must have heard about the phrase United 'We stand divided we fall. Since we have got independence, we know that how important unity is, people can easily break you and throw you if you are alone, but when you stand together then nobody can touch you, We all know that unity gives us courage power and strength, we all have heard this phrase, because its

commonly used in different places, We can see unity even at the workplace, where team members together works in order to complete the target, even in local trains people create groups so that they can help each other, unity always supports and help, if any team member works alone there can be chance that person get defeated, but if person works as a team chance of success increase.

Initially every business starts at a small level but as expansion happens team increase people in that company increase, because group of people together creates a big and huge company hence, if you want to go far go together, because unity will give you that power and strength. Nowadays many people try to break this unity because they know if normal people come forward with a unity then no one can break them or not even they can try to touch them.

We people should always stand together because unity not only gives strength but it is

also important for survival, not only humans but even animals work together, even in them we can see and notice unity, for example whenever any dolphin gets hurt other dolphins help that wounded dolphin by bringing her out of water so that she can breathe, so that survival becomes easy and smooth, NEVER ALLOW ANY NEGATIVE INFLUENCE TO BREAK YOUR UNITY, }  
 Because: some people still try to break us to divide us because they understand the importance, of United we stand divide we fall.

Why is unity Important?

- 1. Unity is needed for survival.
- 2. Unity helps to grow.
- 3. Unity Works in Wonders
- 4. Unity give courage.

So "Unity Makes Us One".

## UNITY MAKES US WE

From our very childhood, we are taught that unity makes us stronger and better persons. "United we stand, divided we fall" has been our motto, and we have always tried to follow it. Unity characterizes almost every aspect of teamwork. Starting from the grass root levels, unity is essential for every bit of community service we do. In a school, teachers often divide children into different groups and assign them some work to do. The very purpose of this is to teach children how to perform in a united and organized fashion.

Unity not only makes us more reliable but also increases our resistance by a great deal. In India, we have always tried to achieve economic, political, social, religious, racial, linguistic, and cultural unity. This is because of India's massive territorial area and diverse nature. Integration in diversity that makes our country unique and different from the others.

To start with, unity does not mean every culture or religion has to be similar. It means, despite the existing differences, everyone will feel that they belong together. Integration is the most significant binding factor of a nation. At this point, we must understand that not every territorial, demarcated area is a Nation. Unity and integrity are the two factors that build a nation.

A nation is characterized by unity and solidarity. Thus, unity can make and break a country. The most courageous display of unity was seen in the struggle for independence of the Indians from the British. Every Indian, be it Hindu, Muslim, Jain, and everyone else, fought to rid India of the hated foreigners.

We have been trying to achieve the same unity and fervor post-independence. However, religious anarchy has become a significant obstruction to unity in India. Hindu and Muslim unity was a signature characteristic of India that began to fade after Partition. Several unforeseen and unfortunate incidents have further separated these two religions. In India, no extra favor is extended to any particular religion, according to the constitution. But, political leaders have always used religious propaganda to feed their interests.

In India, present-day unity is threatened by vote bank politics, which is wholly based on the policy of divide and rule. They provoke one religion against another and cause a breach of peace and unity. But, India has always faced the challenges of unity and has emerged victorious. Unity cannot be enforced on anyone. It is a feeling that comes from the depths of truth-unity fuels solidarity and oneness among individuals. Unity and integrity form the two fundamental pillars of a country and is essential for smooth functioning and administration.

Unity helps us to be more resistant to unknown factors and harmful situations. India, as a whole, is a united nation that can resist foreign attacks and other threats. Unity was the main factor that helped India to gain her independence. Unity is indispensable in every situation, among every person, if they want to achieve success in their lives.

"Unity makes us we"

Unity is of utmost importance for society as well as the whole country. "Strength is always with Unity" is a popular phrase and it is true to its every word. Unity represents togetherness. Therefore, it is standing together for every thick and thin matter. There are many stories as well as real-life incidences have proved that unity always leads a harmonious and fulfilling life for all. On the other hand, many people still do not understand the importance of staying in unity. People keep fighting over insignificant things and at last end up with loneliness.

-Towards Common Goal- Unity

People in unity look forward to work towards a common goal instead of satisfying their own selfish motives. People love their nation as well as their fellow citizens. Therefore, it is the fact that they would be able to grow with a better lifestyle only when there is national development.

And it is but obvious that national development is possible only when they maintain unity. Hence, this goes a long way in the development of the nation.

-Help and Support-

People help each other and provide moral as well as financial support when it is needed. On the other hand, living in isolation will make anyone feel insecure and introvert.

### -Source of Motivation-

When we work together, we are motivated and encouraged to work harder. Also, we push each other to accomplish the goals and this works as a great motivational factor.

### Fighting a Mission-

Fighting a mission becomes much easier when there are more numbers of people involved.

### Conclusion

Thus, we see there are uncountable benefits of staying in unity. We can accomplish big tasks, rely on the people in times of need and nurture youth power in a better way. Safety and security can be assured by the national unity. Every citizen must work towards having full unity in the country.

**National Youth Day**

**Date: 12<sup>th</sup> January 2021**

National Youth Day is observed on 12 January to inspire the youth generations, the future of the country. National Youth Day creates awareness and provides knowledge about the rights of people in India. It is a day to educate people to behave properly in the country. The main objective behind the celebration is to make a better future of the country by motivating the youths and spreading the ideas of the Swami Vivekananda. National Youth Day is also famous as "Yuva Diwas".

A very thought provoking, motivational event was organised on the occasion of Swami Vivekanand Jayanti by Suryadatta Group of Institutes in remembrances of Swami Vivekananda.

### LEADERSHIP MANTRA FROM CHHATRAPATI SHIVAJI MAHARAJ

Chhatrapati Shivaji Maharaj is one of the greatest organizers in the history of the world. The man who 'wielded the Marathas into a mighty nation', was also an outstanding military strategist, a skilful diplomat and an enlightened administrator. He never let his enemies unite against him. He got his father free from the Sultan of Egypt on account of his diplomacy. The freedom from the domination of Aurangzeb at Agra speaks volumes of his diplomacy.

Shivaji Maharaj was highly praised for his exceptional leadership qualities even by his enemy emperor like Aurangzeb, who had to admit that "My armies have been employed against him for nineteen years and nevertheless his (Shivaji's) state has always been increasing."

29<sup>th</sup> May, 2021

**Subject: World No Tobacco Day on 31<sup>st</sup> May, 2021**

Respected Sir/Madam,

Every year, on 31<sup>st</sup> May, the World Health Organization (WHO) and global partners observe World No Tobacco Day (WNTD). The annual campaign is an opportunity to raise awareness on the harmful and deadly effects of tobacco use and second-hand smoke exposure, and to discourage the use of tobacco in any form. This year, the theme of World No Tobacco Day 2021 is "Commit to Quit".

In this regard, you are requested to kindly observe the "World No Tobacco Day" in your esteemed university and the affiliated colleges on **31<sup>st</sup> May, 2021** and organize a pledge-taking ceremony in a befitting manner following strict adherence to the Government Guidelines/Protocols on COVID-19. A copy of the pledge in English and Hindi is attached.

With kind regards,

Yours sincerely,

World No Tobacco Day 2021

Say No to Tobacco

"Commit to Quit"

Date: 31<sup>st</sup> May 2021

REPORT

31st May is declared as World No Tobacco Day by WHO. Tobacco Day which is observed around the world to make tobacco users aware of the opportunity to lead a healthier life and to spread awareness about the dangers of using tobacco products and how health problems can be tackled.

This year WHO launched a global campaign which will be conducted under the slogan "Commit to Quit" a goal for all and not only individual tobacco users. Aiming to help 100 million people quit tobacco use. Quitting can be challenging, especially with the added social and economic stress that have come as a result of the pandemic to support the campaign SCMIRT NSS organised pledge-taking ceremony on virtual platform. to say "No to Tobacco" and "Yes to Life".

The program begins with the introductory note by NSS PO Prof. Priya Barhate, followed by the guiding lines of Principal of SCMIRT Dr. Abbas Lokhandwala. In through a light on how tobacco spoils the health and why it is important to avoid it, the program was carried forward by an eye-opening presentation by SCMIRT faculty Dr. Madhuri Pant madam she highlighted on how easily the youths are getting addicted to tobacco, what are its impact and how to come out of this addiction. How students can share their problem to families, faculty members or even can take help of counsellors if required.

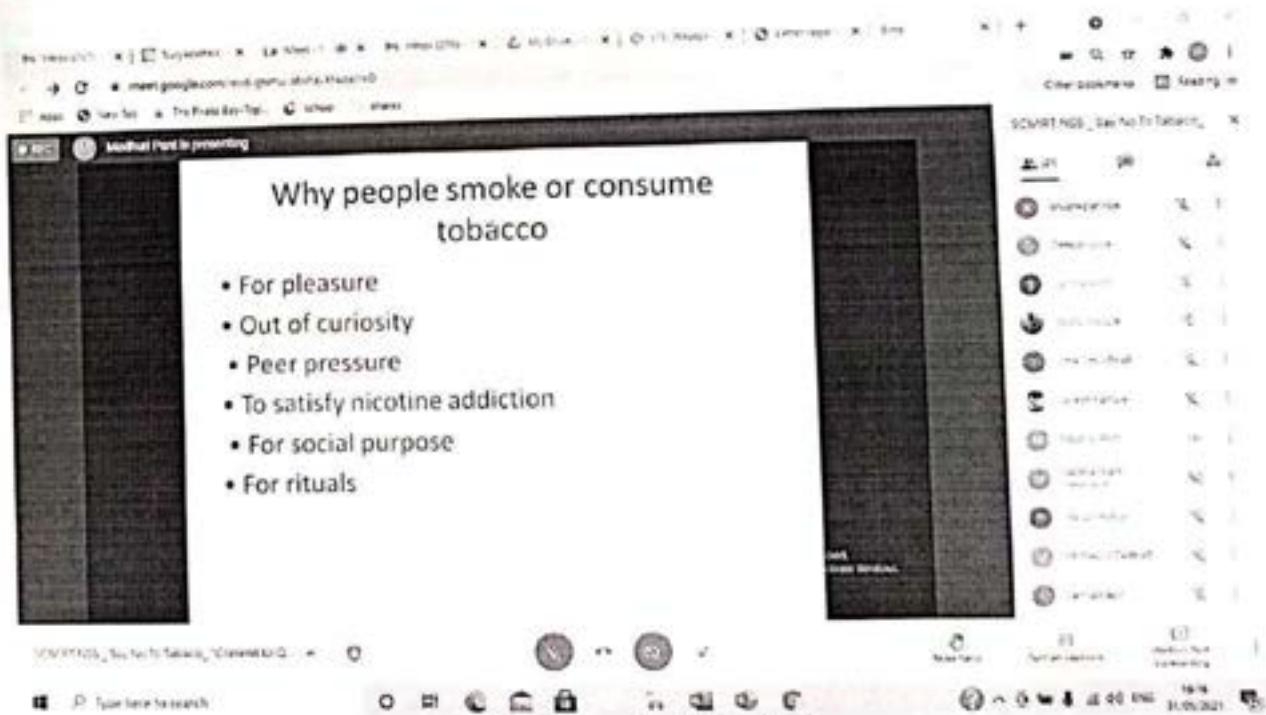

The program concluded by pledge-taking ceremony on Commit to Quit.

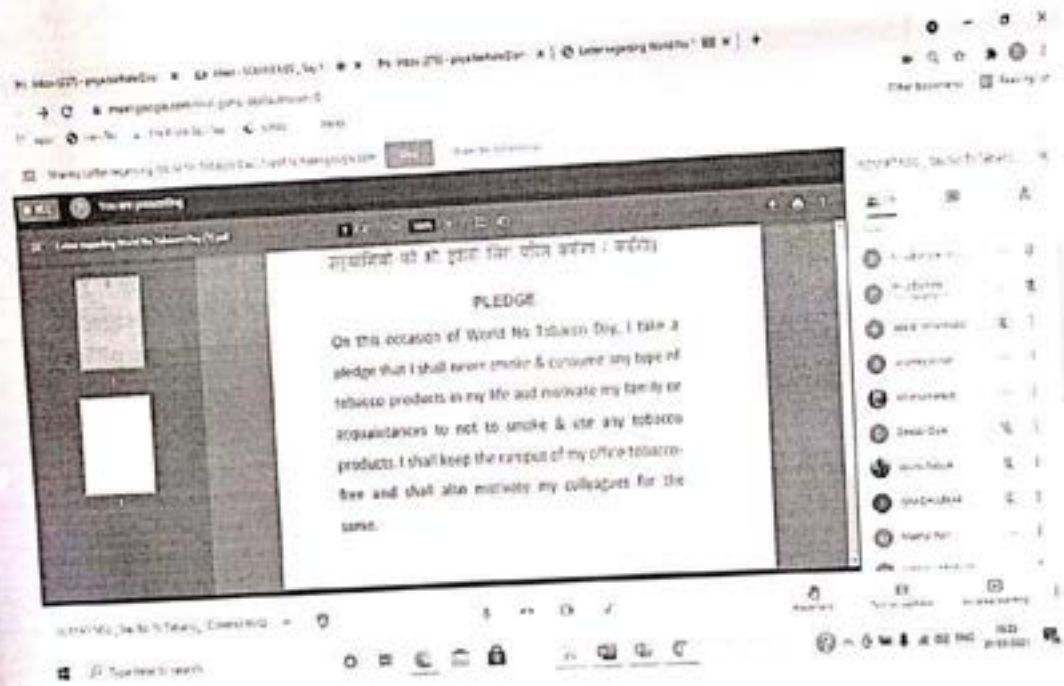

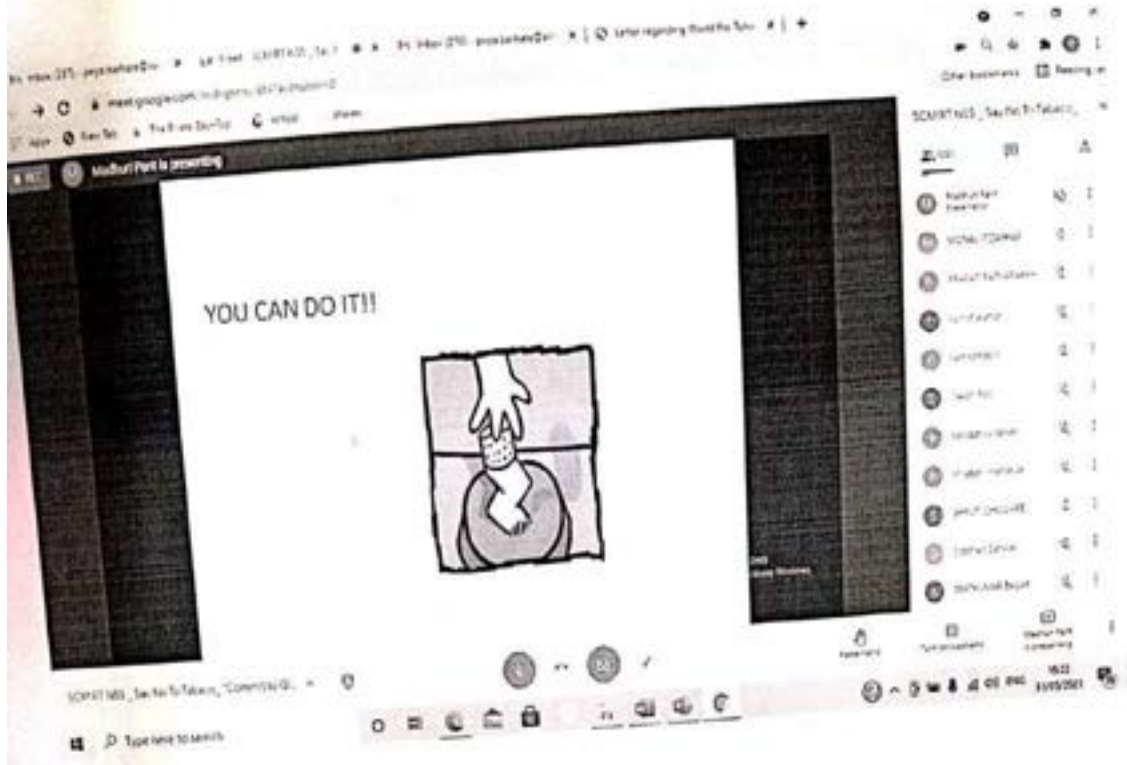

The program was anchored by NSS Volunteer by Anushka Shinde and and Pledge was given by NSS Volunteer Sarvedhnya Pawar. The program was attended by all SCMIRT faculties and students.
