

Suryadatta College of Management Information Research and Technology in Pune offers a learning environment that is constantly challenging and dynamic. It is equipped with state-of-the-art infrastructure, driven by creativity and competition, and supported by advanced technology and an eclectic teaching approach.

In today's education system, the focus extends beyond imparting knowledge and skills to encompass the overall development of students. Especially in the post-Covid job market, securing a full-time role after graduation can be overwhelming. This emphasizes the importance of internships for college students now more than ever. Internships provide valuable hands-on experience that is just as significant as academic coursework when making a smooth transition into the global workforce. They serve as a perfect opportunity to explore potential career options and start building a professional portfolio and network.

On August 16, 2021, Suryadatta Group of Institutes, specifically Suryadatta College of Management Information Research and Technology, organized an Internship Drive for all students from 10:00 am to 1:00 pm. Both part-time and full-time internship opportunities were offered to the students. The institute scheduled a two-day internship interview process, comprising a Preliminary round and a Final round.

The Preliminary round of interviews began on August 16 at 10:00 am, with 45 students participating. Four panels, each consisting of three jurors, conducted the interviews. Each student was assessed based on various technical and non-technical parameters. After the Preliminary round, 20 students were shortlisted for the Final round.

The Final round of interviews took place on August 23, 2021, conducted by Prof. Prashant Pitaliya, Director of O.D. & CSR. Out of the 20 students who reached the Final round, 18 were selected for the final internship at Suryadatta Group of Institutes. This internship provided the students with practical exposure and valuable learning opportunities that will benefit their future careers.
